A. LAZZELL, AUCTIONEER

Weather conditions do not halt the outstanding success that has followed A. Lazzell, well known auctioneer, at sales held in this district. Although a biting blast from the north brought thoughts of postponement of the P. J. Dirksen sale at Nanaka on Friday, January 28th, and despite the uncomfortable conditions, the sale realized almost \$800 more than the owner expected.

Evidence of Mr Lazzell's wide-spread advertising was the fact that M. Segal, Calgary horseman, was the principal horse buyer while S. Thew, T. Mori and C. Horvits from Calgary were also spirited bidders. Horses sold very well while extremely good prices were realized for the cattle.

Mr Horvits who left the district on Monday to take up farm land in Ontario, expressed himself as exceedingly gratified with the return of the sale and with the prompt settlement of Mr Lazzell's clerical staff, had a full statement of the sale and all monies turned over to the owner within 24 hours after the auction was concluded.

A. Lazzell will conduct his next sale in the district on February 10th when he will sell the farm owned by Wall Brothers and Peter Mertens at the farm 6 to 10 miles south and 2 to 3 miles west of Nanaka. Mr Lazzell is also holding a sale of the farm property of C. Fay, at Lazzell's Sale Yard, on Friday, February 11th.

One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy is as follows (page 425): "Consciousness constructs a better body when faith in matter has been conquered. Correct material belief by spiritual understanding, and Spirit will form you anew."

64 candidates sat for Departmental Examinations. In the High School grade 12 units were attempted, one of which was obtained in 197 of these. This is 81.07 per cent. 14 wrote the Grade IX Examination, of these 9 received an A category, 1 a B and 4 C's. There were no failures.

There was one change in the Staff during the year. Mr. Norman Ellis taking the place of Mr. E. F. Cameron who was granted a year's leave of absence to proceed to the University of Alberta.

Andrew Garrett was awarded the Scholarship by the committee administering the Strathmore School Scholarship Fund. He is now enrolled for an Honors Course in Modern Languages at the University of Alberta.

School's interest in its students should not cease when they leave school. Of late years graduates the following have proceeded to higher institutions of learning—Wilfrid Elder, Toronto University; Marian Seaton, Betty Drummond, Jan Cormack, Eleanor Eppeland and Max Walls to the Normal School in Calgary.

The following extra curricula activities were successfully carried out: School Fair, Sports Day and Musical and Dramatic Festival. An innovation was a very pleasant High School Banquet. A feature of this was a presentation of Diplomas, awarded by the Royal Canadian Humane Society to Durrell Bell and Bert Scollins, for presence of mind and courage in saving one of their school-mates from drowning.

Your attention is earnestly called to an extract from the New Programme of Studies for Alberta.

Schools.
In general one may say that the following educational trends of the present day will be found in the up-to-date school programme.

1.—A broad perspective in education, with recognition not only of knowledge but also of skills, habits, appreciations, attitudes and ideals as valid objectives.

2.—A reaction against the mechanized routine of formal instruction, with the consequent adoption of project or enterprise procedure, and the substitution of pupil for teacher activity.

3.—Recognition in the programme of training for personal and social efficiency, emotional control and integrations of personality.

4.—General acceptance of the principle that the purpose of education is fundamentally social, and that an understanding of the social environment is quite as necessary as an understanding of the physical environment.

5.—Belief in the ideals of democracy, and in the possibility of maintaining them through education.

May I, in conclusion, very sincerely thank the School Board and its Secretary for their unflinching courtesy, the members of the Staff for the spirit of friendliness the extend among us and the parents and pupils for a very large measure of co-operation.

All of which is submitted for your consideration by Yours truly,
S. H. CROWTHER.

**The EAST eats
20,000,000 pounds
of Western Butter!**

Ten thousand tons is a lot of butter. It represents an income of \$4,500,000.00 to the Western producer. Yet it's but one item in the bill for Western foodstuffs sold to the industrial East last year. Butter is spread on bread, and the wheat to make the bread comes from the West. Ten thousand tons of butter will spread on a lot of bread.

In fact, the East bought over \$15,000,000.00 worth of grain, honey, eggs, poultry and other commodities besides 127,000 tons of fresh and cured dressed meat; 127,705 head of cattle; 21,144 calves; and 41,557 hogs, valued at another \$15,000,000.00.

All told, the East drew on its Western Commissary for over \$40,000,000.00 worth of farm products, providing a vital source of income to thousands of Western farmers.

Your purchases of Made-in-Canada cars help maintain this market, by keeping thousands of Eastern workers in steady employment with regular pay cheques that enable them to buy more Western foodstuffs. And don't forget this domestic market brings far better prices than does the export market.
